Sponsiones Academicæ Edinburgenæ olim ad Gradum in Medicina Doctoralem capessendum.

1705.

Ego —— —— Doctoratûs in Arte Medica titulo jam donandus, sanctè coram Deo cordium scrutatore Spondeo, me in veritate et puritate Religionis Christianæ ab omnibus Pontificiorum erroribus repurgatæ, et in omni debitæ gratitudinis officio erga Academiam Edinburgenam, ad extremum vitæ halitum perseveraturum. Quod autem ad ægros sanandos attinet, me diætam ipsis pro facultate et judicio meo commodam constituturum, omneque detrimentum et injuriam ab iis prohibiturum: Neque vero ullius preces apud me adeo validæ fuerint ut cuipiam venenum sim propinaturus: Nec mulieri uterum ferenti quicquid ad corrumpendum vel abjiciendum fœtum dabo: Porro sanctè vitam et artem meam conservabo: In quascunque autem domos ingrediar, ob utilitatem ægrotantium intrabo; ab omnique injuria voluntaria inferenda et corruptione cum alia, tum præsertim operum venereorum, abstinebo, sive muliebria sive virilia, liberorumve hominum aut servorum, corpora mihi contigerint curanda. Quæcunque vero inter curandum videro aut audiero, imo etiam ad medicandum non adhibitus, in communi hominum vita cognovero, ea siquidem efferre non contulerit, tacebo, et tanquam arcana apud me continebo. Hoc jusjurandum mihi integrè conservanti, contingat et vita et arte feliciter frui, et apud omnes homines in perpetuum gloriam meam celebrari: Pejeranti autem his contraria eveniant.
